

GRENADE: SATIN PACK

TECHNICAL DATA SHEET

Issue Date: 14-JULY-22

Revision Date: 21-NOV-22

PRODUCT DESCRIPTION: SATIN ADDITIVE

BallistiX GRENADE SATIN PACK additive is a proprietary flattening agent that is designed to be used with BallistiX SINGLE COMPONENT or COUNTERATTACK wherever a satin look is desired. Coating heavily glazed or high-gloss tile surfaces with minimal available anchor pattern (surface profile) is not recommended. Do not use with anti-skid additives.

SATIN PACK is designed to be added to BallistiX SINGLE COMPONENT or COUNTERATTACK for installations over hard surfaces when a satin finish is desired. SATIN PACK does not affect coating performance. SATIN PACK keeps satin surfaces satin.

SURFACE PREPARATION

It is of utmost importance to ensure proper surface preparation. Be sure to read any and all available pre-treatment instructions for your chosen BallistiX product and thoroughly clean the surface with BallistiX ISOPROPYL 99.

MIXING INSTRUCTIONS

When mixing with **ONE GALLON** of BallistiX Single Component or Counterattack:

- 1 Bottle = Semi Gloss
- 2 Bottles = Satin
- 3 Bottles = Luster
- 4 Bottles = Matte

When mixing with **ONE QUART** of BallistiX Single Component or Counterattack:

- 1/4 Bottle = Semi Gloss
- 1/2 Bottle = Satin
- 3/4 Bottle = Luster
- 1 Bottles = Matte

- Give BallistiX SINGLE COMPONENT or COUNTERATTACK a gentle shake (see specific product instructions).
- Shake the SATIN PACK bottle(s) vigorously by hand for at least 30 seconds.
- Add desired contents of the SATIN PACK bottle(s) into the BallistiX quart/gallon.
- Gently shake mixed products until completely combined.

APPLICATION

See technical documents for BallistiX COUNTERATTACK or SINGLE COMPONENT for proper application method.
